

Towfiqul Islam

Software Enginner

♀ Dhaka, Bangladesh

Profile

I graduated from Computer Science and Engineering working since September 2019, focused and quick-learner, skilled and results-oriented Software Engineer with more than 2 years of experience in the IT Industry with a passion for developing innovative programs that expedite the efficiency and effectiveness of organizational success in a variety of environments with a breadth of programs and technologies. Well-versed in technology and writing code to create systems that are reliable and user-friendly. I have the proven ability to motivate, educate, and co-operate with a team of professionals to build software programs and effectively track changes. Confident communicator, strategic thinker, and innovative creator to develop software that is customized to meet a client's needs, highlight their core competencies, and further their success.

- * Strong in design and integration with intuitive problem-solving skills.
- * Proficient in Java (Spring Boot), MySQL, Oracle, DynamoDB, Tomcat, Docker.
- * Worked on various small and large projects and delivered on time.
- * Ability to translate business requirements into technical solutions.
- * Passionate about implementing and launching new projects.
